

CHURCH REVITALIZE CONFERENCE

Helping churches wake up and grow healthy so they can live again!

If you want to grow healthier as a leader, pastor, or church, this conference is for you. If your church is experiencing a season of decline and you feel discouraged, this conference is for you. If you want to learn from leaders who are doing the work of revitalization, not just writing about it, this conference is for you. Here is a message from our conference founder & fellow church revitalizer...

<https://www.youtube.com/watch?v=hy2-NePwQJw>

Dr. Mike Rubino is a leader who loves the local church. Over the course of 20 years, he has helped launch multiple church plants, replants, and revitalizations across the Northeast. Pastor Mike's vision is for every local community to have a healthy local church. This is not another repackaged church growth conference. This is not about the size of our churches; it is about the size of our God. It's about learning how to lean on the Lord and learning from one another so we can bring new life into our communities.

This virtual conference will take place on **May 23rd & 24th from 12:00pm – 4:00pm**. Each day will have four speakers, after each speaker's session there will be a live Q+A portion to interact with the speaker directly and find out more on the next steps you can take toward ***Revitalization!***

IMPORTANT NOTE FROM PASTOR MIKE: Being a pastor has been one of the biggest blessings of my life. It can also be REALLY challenging...often it feels like everyone wants something FROM you. That's one of the reasons that it's SO refreshing when

you find a trusted ministry partner ...a Christ-centered, church-driven organization that's truly there to HELP YOU carry your church's mission forward. For me, Compassion International has been one of those trusted ministry partners. Hear me say this: Compassion International is about MUCH more than asking people in your church to sponsor a child. Compassion offers proven, no-cost resources to help pastors make mission and discipleship a personal priority for the individuals and families in their churches. My local Compassion team is in my corner – they genuinely care about me and my church. Compassion is all about church partnership & child sponsorship! Learn more about partnering with Compassion at www.compassion.com/revitalize
